THE BRITISH COMPUTER SOCIETY

Branch Meeting

5th December 2001 at 6.30pm

Video across the Internet

Harry Hellyer
IndigoVision

Harry Hellyer from IndigoVision, a world technology leader in video management and compression technology, will be addressing the following questions.

- ⇒ Where is live IP video used today
- ⇒ How is IP video being deployed
- ⇒ What is the difference between live and streamed IP video
- ⇒ How will IP video work in the home
- ⇒ How and when will broadband rollout happen
- ⇒ What broadband services can we expect
- ⇒ Who will pay for what
- ⇒ How will the convergence of TV with streaming occur
- ⇒ Where will IP video go next

Harry Hellyer's background includes working in BT's broadcast services group (which helped launch Sky), deploying the infrastructure for Satellite and Terrestrial TV in the UK (and Europe) and working on the launch of BT's internet, web and Intranet services.

Venue:

The Royal Pharmaceutical Society
36 York Place, Edinburgh EH1 3HU

ADMISSION FREE, NON-MEMBERS WELCOME
